through virtual reality

VENICE VR  
RENOVATIONS

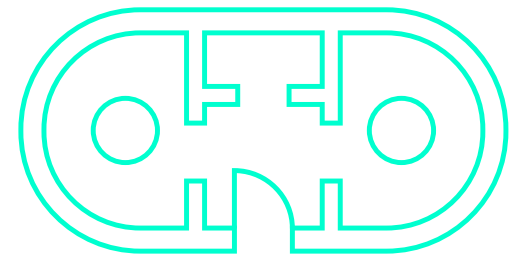

---

# A NEW WAY TO VISIT THE WORKSITE THROUGH VIRTUAL REALITY FROM EVERYWHERE YOU ARE AND AT ANY TIME YOU WANT

Looking to start a renovation in Venice but you live in another city?

Are you on vacation, or simply don't feel comfortable visiting a construction site?

There is an easy way to keep up with your home renovation's progress.

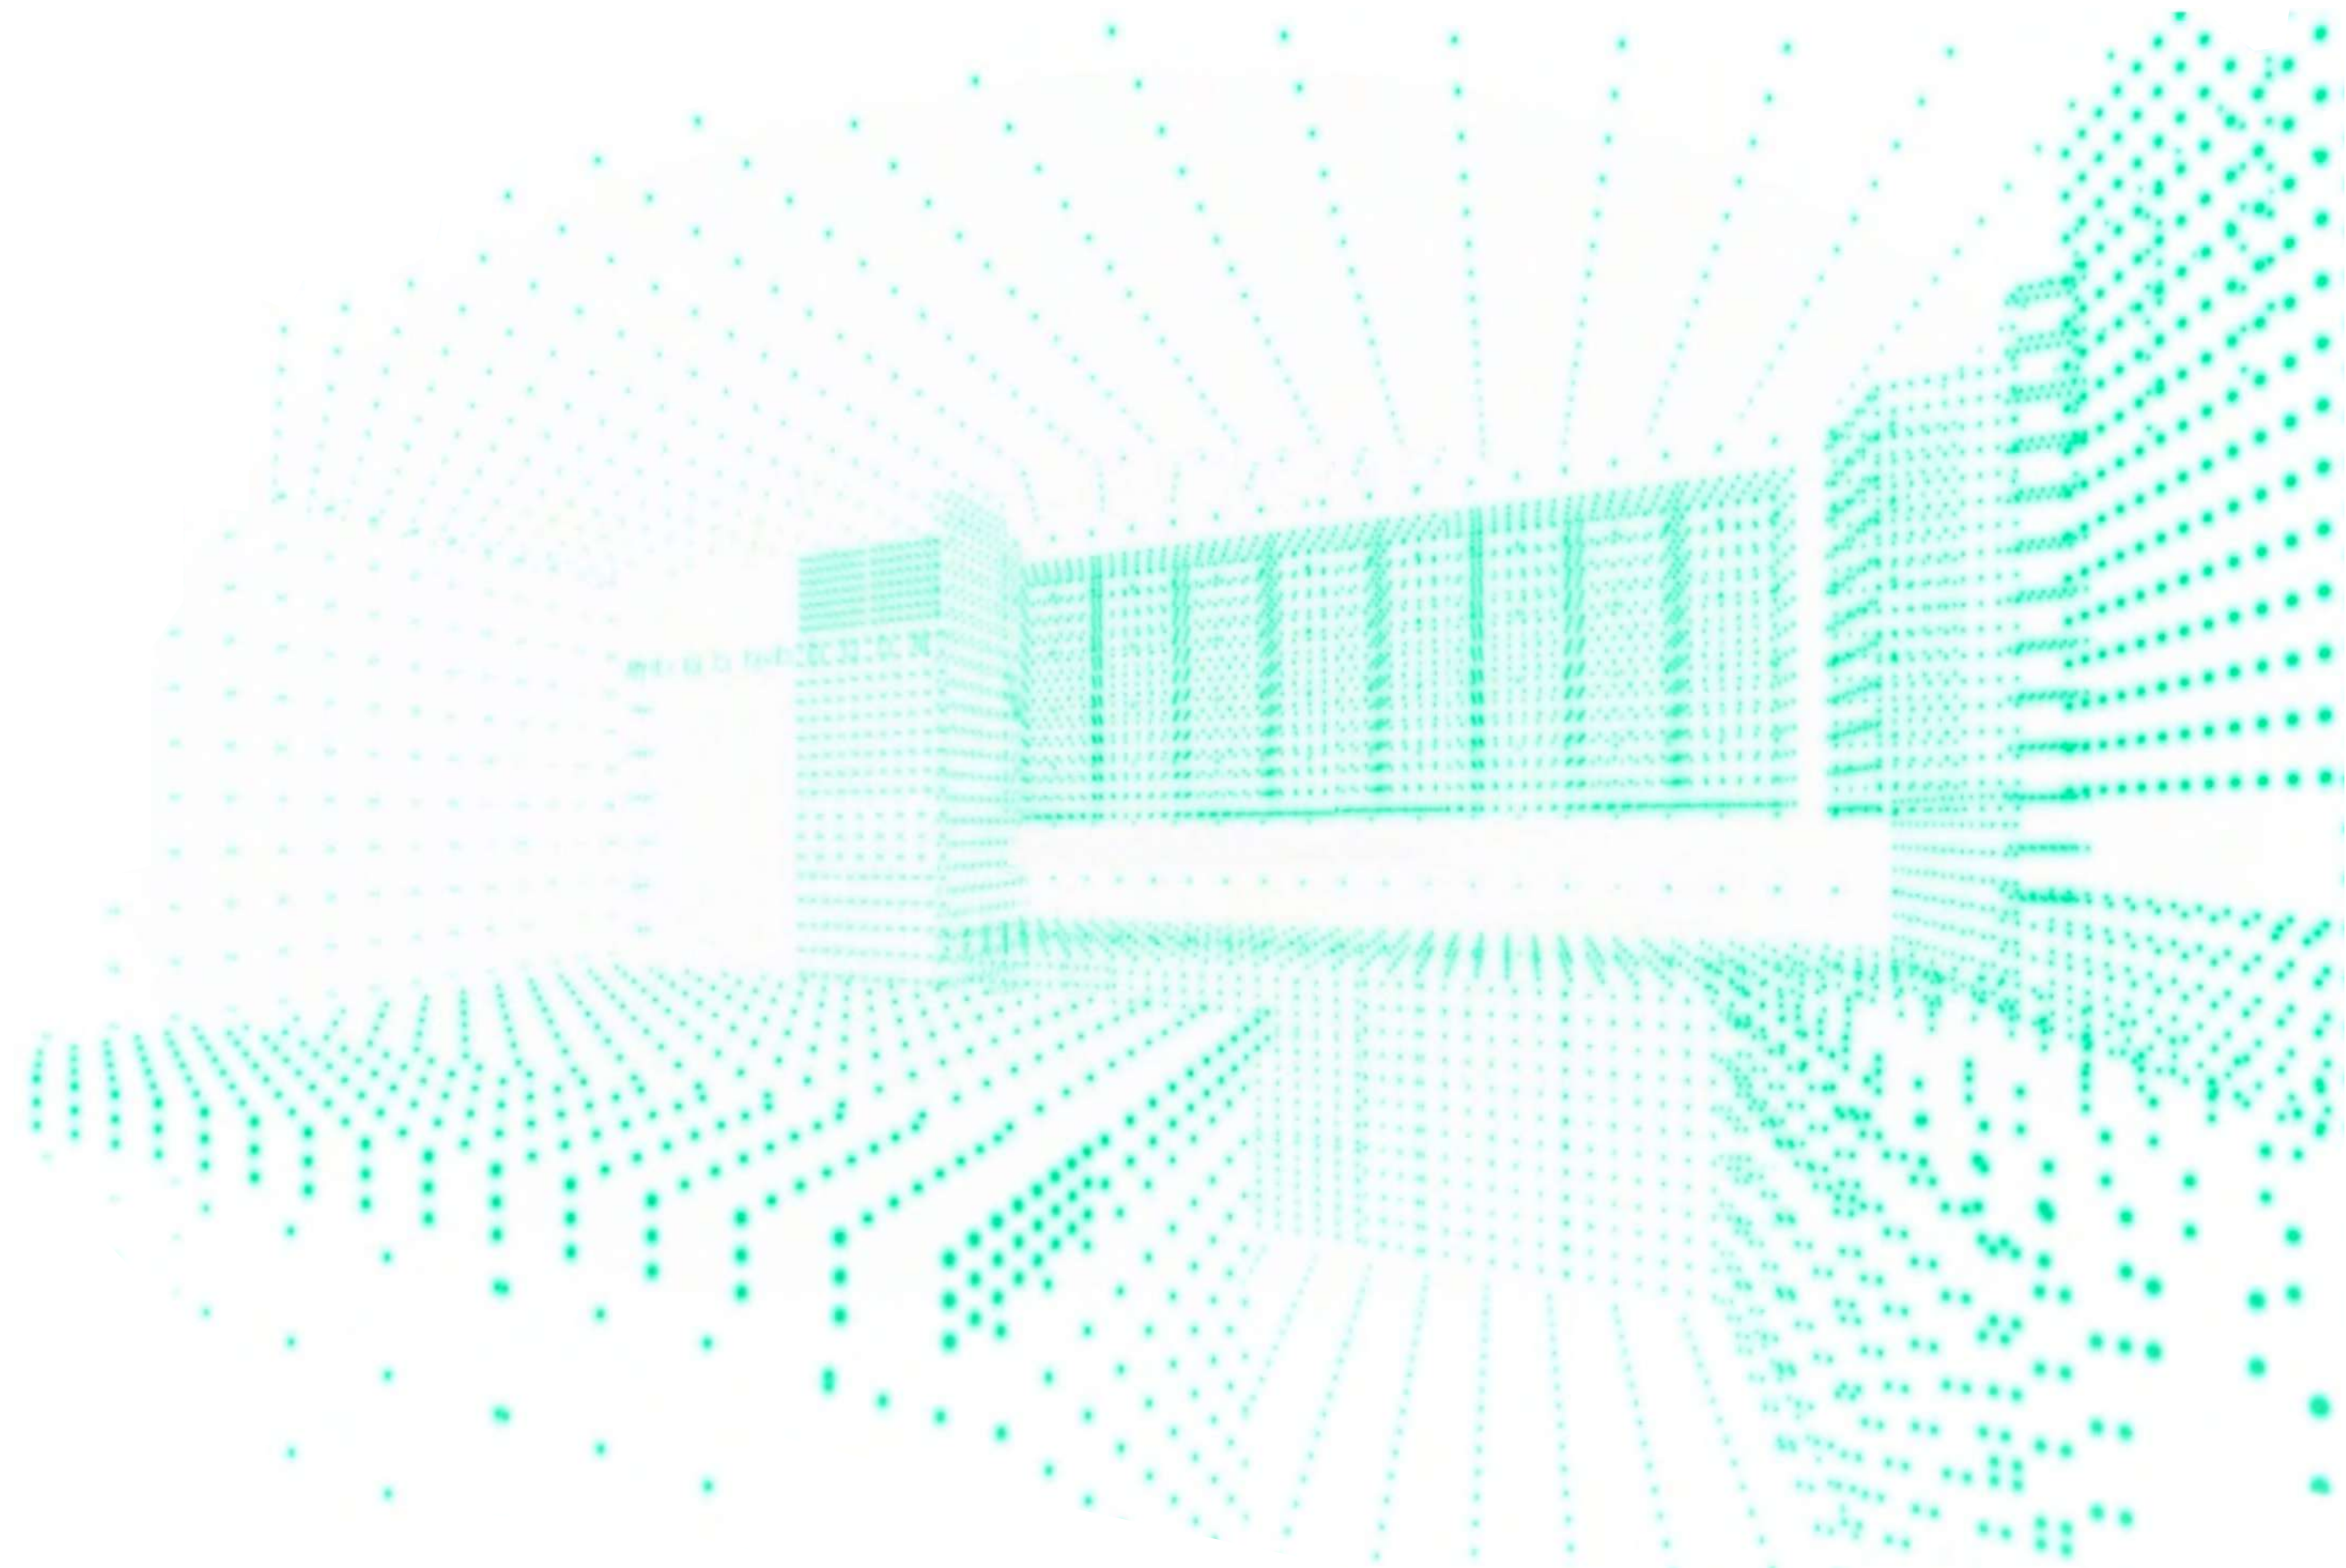

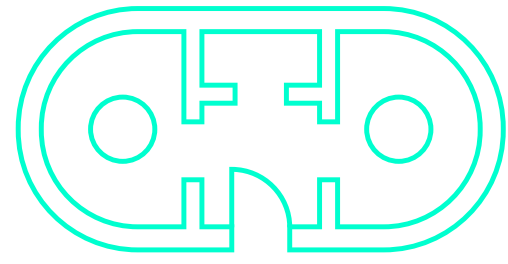

**VENICE VR  
RENOVATIONS**

---

**First of all let's create a brand new design project** for your home, or simply reimagine some of the spaces in it.

In order to do this together, we will scan your entire property at project beginning **allowing you to visit the interior of your house** at any time **from your computer, smartphone** or any available device with an internet connection.

VENICE VR  
RENOVATIONS

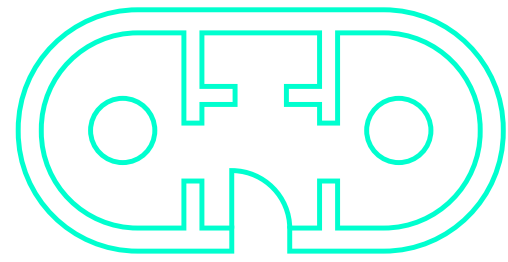

# VIRTUAL REALITY NAVIGATION

At this point we will provide you a **VR link** through which **you can visit your home on-demand** from everywhere and at anytime, allowing you to feel **like you are in overseeing your remodel**.

For your convenience we will ship you a **VR headset**, if you don't already have one.

**With the VR headset you can show off your project with your family and friends, but also allows you to better discuss project parameters with your design team.**

VENICE VR  
RENOVATIONS

---

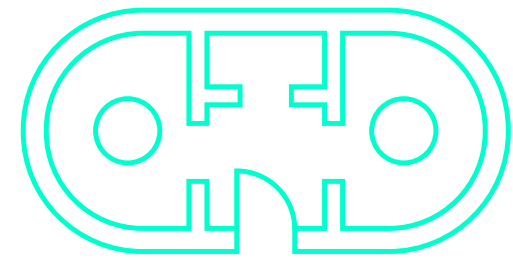

# ONCE THE DESIGN PART IS OVER THE VR EXPERIENCE CONTINUES.

While the renovation works will improve, we will scan the worksite to **keep you updated** on the project until the end of the renovation.

You don't need to visit the construction site, just keep the VR handy and wear it every time our team shares an **updated VR link**.

In this way you can easily keep up with your home transformation **without missing any step in total safety**.

If you already planned or even started a renovation you can still take advantage from our services: we will work closely with your architect and collaborating in the renovation process to provide you the best, most immersive experience possible.
